Re:

Wells G & H Superfund Site, Olympia Source Area, Woburn, Massachusetts

Dear Mr. Rosenblatt:

This letter follows our earlier discussions and serves to forward the "Data Summary Report for the Former Drum Disposal Area" dated December 2002, prepared by EPA's contractor, TRC Environmental Corporation at EPA's behest.

As I indicated to you in earlier conversations, EPA has done extensive sampling at the Olympia Source Area during 2002. After review and analysis of sampling results by both the EPA Remedial and Removal Programs, EPA determined that a time-critical removal action at the Site is appropriate. Hence, EPA's Notice Letter to your client on December 9, 2002.

As you know, EPA has forwarded sampling results to your client as the data has become available. However, based on discussions between you and myself just prior to us issuing the Notice Letter, I requested that EPA's contractor prepare the attached data summary report. I believe you and your client will find the report of comprehensive sampling very helpful and informative. Moreover, the report should also prove very helpful in formulating your response to EPA's Notice Letter, as well as commenting on the Administrative Order on Consent (AOC) issued on December 9, 2002.

We look forward to meeting with you and your client to finalize the AOC and moving forward with the removal action at the Site.

Technical questions regarding the removal action should be directed to On Scene Coordinator Frank Gardner of the EPA Removal Program at (617) 918-1278 and Remedial Project Manager Joseph LeMay at (617) 918-1323.
